EDUCATION

Bachelor of Computer Science

Bishop Heber College

2020 - 2023

Tiruchirappalli

GPA

3.2 / 4.0

SKILLS

Programming

Java

Python

DSA

Frontend

HTML

CSS

Bootstrap

Javascript

Svelte (Sveltekit)

Backend

NodeJS

Express

Mongodb

Others

Github

Linux

Windows

ACHIEVEMENTS

Streak Maestro

Awarded as Streak Maestro by Coding Ninjas for maintaining a 24-week coding streak and solving 1.6k coding problems.

Excellence in Frontend

Awarded the Certificate of Excellence in Front End Full Stack Web Development in career camp program.

Excellence in Backend

Awarded the Certificate of Excellence in Backend End Full Stack Web Development in career camp program.

FUTURE ENDEAVORS

Creative Initiatives and Projects

Community Engagement and Networking

Financial Planning and Investment Strategies

SUMMARY

Experienced Full Stack Developer with a proven track record of delivering high-quality software solutions. Skilled in both frontend and backend development, adept at leveraging a wide range of technologies to build robust and scalable applications. Demonstrated ability to lead projects from concept to completion, with a strong focus on user experience and functionality. Committed to continuous learning and staying updated with the latest industry trends to drive innovation and deliver exceptional results.

EXPERIENCE

Software Engineer Trainee

Magzter Digital Private Limited

06/2023 - Present

Chennai, Tamil Nadu

Key Projects & Description

- Revamped the Magzter website from React to Svelte, enhancing dynamic content rendering, Server-Side Rendering (SSR), SEO, and overall performance.
- Designed and executed a robust localization strategy, making the site accessible in six languages and enhancing global user engagement.
- Innovated with the UI/UX team to craft a sleek, responsive interface, significantly improving user experience and interaction.
- Streamlined backend operations in collaboration with the server team, focusing on code reusability, maintainability, and superior performance.

PROJECTS

Tracker Pro

https://issue-tracker-frontend-delta.vercel.app/

TECHNOLOGICS USED: SVELTE (SVELTEKIT), NODEJS, EXPRESS, MONGODB
DEPLOYMENT: FRONTEND(VERCEL), BACKEND(ONRENDER)

Engineered an innovative full stack project management solution, empowering users to effortlessly create, manage, and track multiple projects and issues dynamically in real-time. This comprehensive platform facilitates efficient collaboration and progress tracking, ensuring projects stay on course for success.

- Dynamic Project and Issue Management:** Seamlessly create, manage, and track projects and issues in real-time, facilitating efficient collaboration and progress tracking.
- Intuitively designed, responsive interface for optimal user experience.
- Scalable Infrastructure:** Engineered with scalability in mind, the system supports seamless project management operations, ensuring efficiency and reliability as user demand increases.
- Intuitive and Responsive Interface:** Designed with user experience in mind, the interface ensures optimal usability and accessibility across various devices, enhancing productivity and satisfaction.

NodeJs Authentication System

https://auth-system-frontend.vercel.app/

TECHNOLOGICS USED: SVELTE (SVELTEKIT), NODEJS, EXPRESS, MONGODB
DEPLOYMENT: FRONTEND(VERCEL), BACKEND(ONRENDER)

Engineered a robust NodeJS Authentication System, offering versatile login options including username/password, OTP, and Google account integration. Seamlessly manage user authentication processes from sign-up to password recovery, all while prioritizing responsiveness for an enhanced user experience.

- Modular Code Structure:** Ensured code reusability and scalability for efficient maintenance and development.
- Diverse Authentication Methods:** Provided flexible login options including username/password, OTP, and Google account integration.
- Responsive Design:** Implemented responsive design principles for consistent user experience across different devices, enhancing accessibility and usability.
